

# Where Should I Start?

The screenshot shows the 'Total Package II' software interface. The main window is titled 'Quick Rating - 1003820'. It features a 'Coil Design Parameters' section on the left with various dropdown menus for 'Coil Type', 'Cooling/Heating', 'Tube Size', 'Fin Height', 'Fin Length', 'FPI', 'Rows Deep', 'Fin Type', 'Circuit Fraction', 'Hand', 'Fin Material', 'Fin Thickness (In.)', 'Tube Material', 'Tube Thickness (In.)', and 'Casing Material'. To the right, there is a 'RAE QuickRate' section with input fields for 'CFM/Coil', 'Alt', 'QTY', 'EDB', 'EWB', 'EWT', 'dT', 'GPM', 'Fluid', and '%Glycol'. Below these fields are buttons for 'Rate' and 'Edit Special Notes'. The top of the window shows 'Customer: RAE Corp', 'Job: Test', and 'Tag: AHU-1'.

## Quick Area

- Use the Quick Area for a fast and easy way to get a budget price or a quick rating. The Quick Area is designed to be disposable, and you cannot save the data. You can view and print your selection, but the program features are limited.

# Where Should I Start?

## Work Area (*Scratchpad*)

- The Work Area is designed to be a disposable scratchpad. The Work Area is similar to the Quick Area with limited program features. However, the Work Area allows for more flexibility and the coil can be moved to the Project Area to be saved.

The screenshot displays the 'Current Quote' window in the Total Package II software. The window title is 'Total Package II [RAE TOTAL PACKAGE 2 - Logged into file name Z:\TotalPackage Test\datafiles\USER\F.R.I.E.S.mdb]'. The main content is a table with the following columns: Item, Model Number, Item Tag, Priced Amt (Ea), and Qty. The table contains 15 rows of data. To the right of the table is a 'New Coil' panel with radio buttons for 'Commercial', 'Booster', and 'Industrial', and several buttons: 'Water', 'Direct Expansion', 'Standard Steam', 'Steam Distributing', and 'Condenser'. Below the table is a section titled 'Clone your old Selections' with a text box containing the text: 'Got a selection you want to move to another project? It's simple. Create job templates, and move them. Save Time!'
